### The Buy: Joe Fresh flip-flops

Laura Serra

Joe Fresh has done it again with an affordable alternative to an everyday necessity: flip-flops! Although, we'd like to take just a moment here to say that flip-flops, like every style of shoe, has a time and place (read: you can't just wear flip-flops with everything because it's summer).

They come in four colours - blue, blue/green, blue/red and blue/yellow - and are made from synthetic EVA foam, which means they are super comfortable and won't fall apart after two wears. And the two-tone stripes on the base means they look good on and off your feet (because we know you're as conscience of that as we are). \$8, available at most [Joe Fresh](#) locations across Canada.
